PROFILE HIGHLIGHTS

- Proficient in Python, SQL, Linux, Amazon Web Service, Kubernetes, Docker and Terraform
- Hands on experience with Windows and Linux Operating Systems.
- Strong hands on experience CI/CD pipelines , logical thinking, and competitive programming
- Currently Learning DevOps and python libraries (botto3).

INTERNSHIP EXPERIENCE

Railway MP Items Application: Streamlining MP/MLA Requests

On Site

June2024-July 2024

Application Overview

- Railway MP Items: Efficiently Managing MP/MLA Requests
- The Railway MP Items application is an innovative, in-house developed web tool designed to streamline the management of requests from MPs and MLAs regarding railway track diversions and repairs.
- It empowers higher management with a centralized view of all projects initiated by the GM

Key Features and Benefits

- Real-time Project Tracking: Track project details like scope, initiation date, status, and more.
- Enhanced Collaboration: Access and update project data from anywhere, fostering collaboration.

Celebal Technologies : Cloud Infrastructure Management & Operations- DevOps Project (Docker & Azure)

Remote Mode

June 2025 - Aug 2025

Application Overview

- Cloud Infrastructure Management & Operations: Enhancing Scalability, Security, and Performance
- This project, developed during my internship at Celebal Technologies, focused on designing and managing scalable cloud infrastructure to streamline deployment, monitoring, and cost optimization across multi-cloud environments.
- It provided businesses with a robust solution to ensure high availability, secure operations, and efficient resource utilization.

Key Features and Benefits

- Automated Infrastructure Provisioning: Implemented Infrastructure as Code (IaC) for consistent and repeatable deployments.
- Scalable Cloud Architecture: Designed infrastructure capable of handling growing workloads seamlessly.
- Cost Optimization: Monitored and optimized cloud resource usage to reduce operational expenses.
- Enhanced Security & Compliance: Integrated security best practices for data protection and regulatory compliance.
- Centralized Monitoring & Alerts: Enabled real-time visibility and proactive issue resolution.

EDUCATION

Qualification	University/ School	Graduating Year	Percentage/GPA
B. Tech CSE	Amity University Rajasthan,	2026	7.03
12th	SBIOA Public School	2022	68
10th	Banyan Tree School	2020	70

TECHNICAL SKILLS

- Python, MySQL, Tomcat, Vagrant, Linux, GitHub, Amazon Web Service (AWS), Kubernetes, Docker, Jenkins, Terraform.

SOFT SKILLS

Time management, Proactive, Active listener, multi-tasking , Critical Thinking

CERTIFICATION COURSES/ PROFESSIONAL TRAINING COURSES

- Completed a web Development Project, by NWR, May 2024.
- C and C++ Programming – Swati Computers (Aug 2022)
- Completed a course in Devops, by Udemy, July 2025
- Completed a Devops Cloud Infrastructure Management & Operations - (Docker & Azure) project, by Celebal Technologies, July 2025
- Completed a course in Infosys in Docker and Jenkins, July 2025
- Completed a course in Devops integrated with AI, by Coursera, Sept 2025

EXPOSURES

North Western Railways, Jaipur (June 2024 - August 2024)

Utilized web development skills for the project introducing new features.

Managed requests from MPs and MLAs for railways.

Celebal Technologies, Jaipur (June 2025 – August 2025)

- Contributed to the Cloud Infrastructure Management & Operations Project, enhancing scalability, automation, and performance.
- Implemented Infrastructure as Code (IaC) for consistent deployments and streamlined resource provisioning.
- Worked with Azure Cloud, Docker, and Kubernetes to design and optimize infrastructure solutions.
- Supported cost optimization, monitoring, and security improvements for better cloud operations.

PERSONAL DETAILS

Parent Name: Mr. Avik Mathur

Date of Birth: 18/03/ 2005

Permanent Address: 24/143 Swarn Path Mansarovar Jaipur

Languages known: French (Beginning proficiency), English (professional proficiency), Hindi (professional proficiency)
